ANOTHER VERY UGLY INCIDENT

Two American Aviators Held for Ransom by Mexican Bandits

(Associated Press)
Washington, Aug. 18.—The state department has received official reports from Major General Dickman, commander of the Southern Department, concerning the detention by Mexican bandits of Lieutenants Paul Davis and Harold Peterson, army aviators, for whom \$15,000 ransom is demanded. Arrangements have been completed for the payment of the ransom to save the aviators' lives. Relations between the American government and Carranza, which have been strained, are considered bordering on the acute, on account of the failure of the latter to protect American lives below the border. The detention of the aviators is regarded as a breach of international law. A vigorous message has been sent Carranza by the state department.

Ovation for the Prince at Halifax
(Associated Press)
Halifax, Aug. 18.—The Prince of Wales debarked from the cruiser Regown this morning. He was saluted by the garrison and given an ovation by the city.

TEMPORARILY BLINDED

When you turn on the lights, is far better than having poor lights all the time. After seeing the effect of better distribution and better lamps, you could not be satisfied as many seem to be to live in semi-gloom, due to improper distribution of light and lamps.

Illuminating a room properly is a scientific branch of the electrical business. Why worry along with an insufficient lighting system when we can set you right in a short time at a nominal cost?

How many lights have you? Doesn't it appeal to you that the cost of repairing isn't to be considered against the cost in trouble and annoyance caused by a light out of order?

Let us overhaul your lighting system, repair the troublesome ones and install right kind of lamps in all of them and be ready for the fall season with correct illumination.

We sell lamps, the best of good lamps and good lamps cost no more than inferior lamps which appear to be good.

Call on us at our new store, get some new ideas, let us show you some fine electric fans at proper prices. We also carry electric irons, toasters, sewing machine motors, waffle irons, fixtures, table lamps, domes and repair parts for anything electrical.

Remember, it costs no more for the best, either in utilities, material or workmanship.

We give you experience, service and prompt attention. L. A. GABEL, Harrington Hall Block, Phone 499.

MIGHTY FINE CHANCE FOR YOUNG MEN

Uncle Sam Wants Many of His Gallant Boys in the Aviation Branch of the Army

If we ever have another war, it will be decided in the air. If we keep up a strong air service, no other country, or combination of countries, will dare to attack us.

There is a bill before Congress which will enable the United States to have the best air service in the world—provided it can obtain the men.

The war department offers special inducements to young men to enter the aviation service. To enter this service does not mean that a man must become a flyer. Flyers must be volunteers and show special fitness for the duty. But for every man who takes the air there must be ten or more to stay on the ground to keep the machines in order. Any young man with an aptitude for machinery, can make good with the aviation service on the ground, and if he wants to fly and can fly, he will surely be given his chance. In the meantime he will be well paid and learn a good trade, which will be of great use to him, no matter what place he takes, after his enlistment is over, in private life.

We don't think any boy just out of school, and anxious to learn something of lasting good to himself, and at the same time serve his country, can do any better than go into the aviation service. When he comes out he will have a collection of solid information that he could obtain nowhere else. What the army and navy teach, they teach to the superlative degree.

Lieuts. Allen S. Moody and Lawrence B. Cundiff, two of our competent young flying men were in town yesterday and today, and paid the Star a pleasant call this morning.

They informed us that the department wants at least five of our boys to volunteer for the aviation service. It will take ten or fifteen if it can obtain them, but if it can enlist five it will put Ocala on its honor list and will soon send a squadron of flying machines to give an exhibition over the city. Also, sooner or later, if our city shows enough interest in the service, the government is sure to establish a landing field here, and airplanes will visit us as often as railroad trains.

Now, let's see if we can't find five young men in Marion county who want to serve in America's cavalry of the air.

REALTY EXCHANGE WAS APPROVED

Directors of Board of Trade Favor New Real Estate Body and Want Same Endorsed by the Board

The board of governors of the Board of Trade, in session this morning, approved the constitution and by-laws of the new Marion County Real Estate Exchange. At the regular meeting of the Board of Trade Thursday night, at 8 o'clock, the board of governors will recommend that the organization as a whole approve the constitution and by-laws of the new real estate body. The problem of handling real estate in the city and county, has been one of the most perplexing questions that has come before the Board of Trade during its existence. Each year an effort has been made to solve the problem. The organization of an exchange was recently proposed at a meeting of the board of governors with the real estate men. The idea of the board of governors is that real estate matters, coming before the Board of Trade, shall be referred exclusively to the real estate exchange. This will insure realty matters being handled according to prescribed rules and regulations, with the unsatisfactory handling of real estate in the past. The greatest drawback, to the handling of real estate, has been the non-existence of any code governing the same.

On Thursday night, therefore, the Board of Trade will be called on to decide one of the most important questions that can come before it, and the attendance should be in keeping. Any advertising or publicity given the city and county by the commercial organization should be linked up in a definite way with the plan for the sale of property. It is for the members of the Board of Trade to decide whether the real estate exchange is the proper medium through which to accomplish this linking up of advertising and selling.

Another most important matter to come before the Board of Trade, Thursday night, is the question of agricultural work in Marion county. Unless something is done, there will be no agricultural demonstration work in the county next year, no home demonstration work, no pig nor corn club or canning clubs, no appropriation for a fair. The county commissioners have decided to eliminate from the county budget all agricultural items.
